

MODEL 408

LED ENGINE COMPARTMENT LIGHT

Mount Model 408 in any position, on any plane, in engine or high-heat compartments.

The Model 408 LED Lamp was designed to light up engine compartments and other high-heat areas. Available with or without an integrated mounting bracket, this lamp can be mounted on any plane for the most effective illumination. Made of a rugged die cast housing with a tempered glass lens, it is sealed to IP67. The lamp will automatically shut down when temperatures exceed 115°C and re-light when temperatures are reduced to 110°C or less.

VEHICLE APPLICATIONS

- Bus
- Agriculture
- Construction
- Recreation
- Truck

FEATURES

- Solid state LEDs
- Thermal shut-down protection
- Rugged die cast housing
- Crystal tempered glass lens

MODEL NUMBER

408-12/24V
408-12/24V with Bracket

DESCRIPTION

LED Engine Compartment Light
LED Engine Compartment Light with Integral Bracket

PRODUCT SPECIFICATIONS

Light Source LED (Light Emitting Diodes)
Input Voltage 12-24V DC
Current Draw 0.49 Amps
