

MODEL 412

12-24V LED DOME LAMP

UL Recognized Dome Lamp for Material Handling and other equipment.

The Model 412 LED Dome Lamp was designed for the cabs of material handling equipment but can also be used in agriculture, construction, and other heavy-duty environments. It is available with a narrowly-focused optics lens (pictured); a broad wash, clear "cracked ice" lens; or with an amber "cracked ice pattern" lens. LEDs provide longer life and brighter light output than incandescent bulbs. The lamp conforms to IP67 and is UL recognized. It is flush mounted with 2 bolts.

VEHICLE APPLICATIONS

- Material Handling
- Agriculture
- Construction
- Specialty Trucks

FEATURES

- Polycarbonate lens
- UL Recognized
- Conforms to IP67
