MODEL 417

LED DOME LAMP

Two function dome lamp perfect for night-time interior illumination that is not distracting.

Model 417 LED Dome Lamp is a two-function lamp. The white button illuminates white LEDs for map-reading or other intense viewing. The red button turns on red LEDs that provide low-level night-time illumination within the vehicle but do not distract when in drive mode.

Initially designed for use in fire trucks, it is also ideal for other heavy vehicles including agriculture, construction and mining vehicles. LEDs provide a lifetime of trouble-free service.

VEHICLE APPLICATIONS

- Fire Trucks
- Construction
- Agriculture
- Military

FEATURES

- Acrylic lens
- 2 Functions
- Ideal when low light is required

MODEL NUMBER

Model 417

DESCRIPTION

LED Dome Lamp
