

MODEL 890

MULTI-VOLTAGE 3" x 5" LED PANEL LAMP

Classic 3" x 5" panel lamp now available with multi-voltage LEDs!

Here is a perfect retrofit for standard 3" x 5" panel mounted lamps, especially where vibration has contributed to bulb failures in the past. Equipped with a multi-voltage LED light module, the Model 890 lamp will replace classic incandescent or halogen lamps and promise years of service with no need for bulb replacement. Many lens patterns are available, and optional plastic or rubber bezels add to its versatility. A four-year warranty is standard.

VEHICLE APPLICATIONS

- Golf & Turf
- Utility Vehicles
- Light Construction

FEATURES

- Many lens patterns available
- Optional plastic mounting bezel
- Multi-voltage LED eliminates SKUs

MODEL NUMBER

Model 890-12/48V

DESCRIPTION

LED Work Lamp, various lens patterns
