RUGGED HEADLIGHTS DESIGNED FOR TRANSPORT

A Heavy-Duty Upgrade

More Lumens: Newest Generation of LEDs produce 30% more raw lumens using less power.

More Punch: A more powerful high beam pushes further down the road for greater visibility.

More Durable: New optics designed to withstand continuous operation in the harshest environments. A hard coated polycarbonate lens resists damage from road debris.

Not your Average High Beam.

Dual Burn technology goes beyond the average high beam pattern with a three-part beam pattern designed to help people see better and stay safe: **Low Beam** for light directly in front of the vehicle; **ComfortLite** for light above the horizon; and **High Beam** for a punch of light down the road.

Dual Burn Technologies

When it's critical to make the delivery, visibility and durability are drivers' top concerns. The Model 8700 Evo 2 Pro with True Dual Burn™ is now available, delivering widespread truck compatibility and a powerful punch of light down the road to keep you safe.

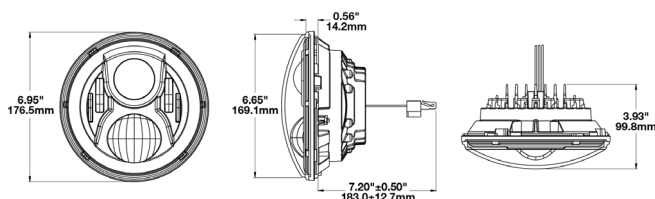

Model 8700 Evo 2 Pro

LED High & Low Beam Headlight; 12-24V DC Input.

- Heavy Duty optical system for long life
- Dual Burn™ high beam for increased ditch-to-ditch visibility
- Uses less power than conventional halogen headlights
- Plug & play installation using a standard H4 connector
- 40,000-hour LEDs reduce maintenance and downtime

Part No.	Description
0556951	LHT ECE LED Headlight with DRL, Chrome
0556961	LHT ECE LED Headlight with DRL, Black
0557501	LHT ECE LED Headlight No DRL, Black
