

LED COMPACT WORK LIGHTS

MODEL 792, 892, AND 893

Model 792

Maximize Productivity

The Model 792 LED Compact Work Light is engineered with tight spaces in mind. The low-profile design of the work light provides an ideal lighting option for agricultural, construction, and industrial vehicles. This durable light is available in both pedestal and panel mount options to fit a large variety of applications. Increase productivity by replacing inferior halogen lights with the Model 792 Compact Work Light.

Model 892

Increased Confidence

See clearly when you need it most with the Model 892 LED Compact Work Light. The second work light in the Compact Work Light Family take illumination to the next level. This pedestal style LED light projects an incredible 3,800 lumens for forward lighting that cuts through the darkest nights and most inclement weather. Use it in agriculture, construction, mining and even off-road environments to help keep your crews productive and safe.

Model 893

Optimize Safety

The Model 893 LED Compact Rectangular Work Light uses its unique low-profile design to project a wide beam of light in the most harsh and limiting conditions. Dependable and brighter than a standard work light, the Model 893 can be used in agriculture, mining, construction, and off-road environments. Avoid accidents and keep your team out of harm's way by upgrading to the optimal illumination solution.

COMPACT WORK LIGHT FAMILY

A CUSTOMIZABLE LIGHTING SOLUTION

Use the LED Compact Work Family together, or individually, to create customizable illumination for any work site.

The J.W. Speaker LED Compact Work Light Family is engineered for the most demanding conditions. Manufactured to endure rigorous requirements for stability and resistance to the elements while also producing powerful flood/trap light patterns to illuminate the darkest work sites keeps production moving and workers safe.

Operating equipment and machinery in dark environments require workers to rely on consistent and quality lighting to remain safe and productive while working. The operating conditions in harsh environments represent a unique set of challenges for workers, as changes in weather and lighting conditions are a daily occurrence.

Designed with thermal throttling protection for construction and agriculture applications, the Models 892 and 893 perform above the rest.

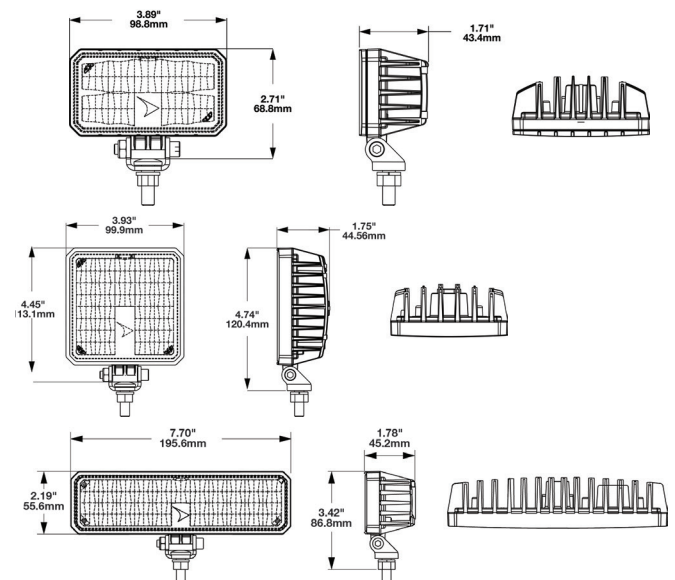

Rated IP67 and IP69K, these compact work lights withstands bumps, thumps and vibrations common when used by rugged users on tough, weather-adverse sites.

J.W. Speaker, known for manufacturing high-performance LED technology, developed these compact work lights to be used in the harshest working conditions providing crucial illumination for the safety, productivity, and comfort of workers. These lights are suited for agriculture, construction, mining and even off-road environments to stay active, productive and safer at all hours and in any weather.

	Part No.	Description
MODEL 792	1603921	12/24V LED Work Light with Pedestal Mount
	1603931	39/90V LED Work Light with Pedestal Mount
	1603951	12/24V LED Work Light with Panel Mount
	1603971	39/90V LED Work Light with Panel Mount
MODEL 892	1603961	12/24V LED Flood Work Light with Pedestal Mount
	1603962	12/24V LED Flood Work Light with Pedestal Mount (BULK w/ Harness)
	1604022	12/24V LED Flood Work Light with Pedestal Mount (BULK w/out Harness)
MODEL 893	1300671	12/24V LED Work Light with Pedestal Mount
	1300672	12/24V LED Work Light with Pedestal Mount (BULK w/ Harness)
	1300692	12/24V LED Work Light with Pedestal Mount (BULK w/out Harness)
