

MODEL 210 LED SOLAR FLASHER

SAVE MORE THAN JUST ENERGY

No Power, No Problem.

J.W. Speaker's Model 210 Solar Flasher is a compact LED solar-powered light that mounts to a wide range of vehicles and equipment. With reflective optics signaling during the day, and bright LED lights flashing at night this light helps identify the precise areas to avoid.

Ideal for: Rail, Waterways, Construction, Agriculture, Mining, and Road Signage

Model 210 Solar Flasher is available at your authorized J.W. Speaker dealer. For more information & technical specifications, go to www.jwspeaker.com

MODEL 210 LED SOLAR FLASHER

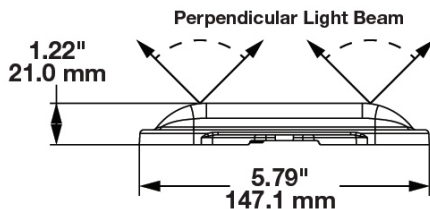

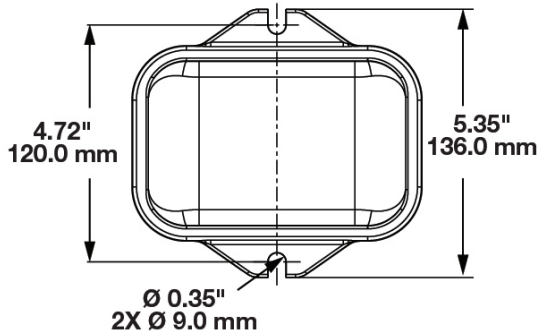

SEE MORE, BE SAFER

Signaling light where you need it the most.

J.W. Speaker solar marker lights are engineered, for optimal visibility under the most adverse conditions – rain, dust, vibrations. Compared to other warning lights that emit parallel beams, our unique design emits perpendicular beams of light for extended visibility. Your equipment and vehicles won't be missed!

Compact and versatile, the Model 210 LED Solar Flasher is nearly indestructible with its polycarbonate housing. Mount J.W. Speaker solar flasher warning lights quickly and securely to any surface without drilling and damaging equipment or vehicles. The powerful Click Bond™ adhesive-bonded mount is the optimal installation solution – quick and reliable.

This versatile light is enabled for year-round use while providing superior visibility, extreme durability and unmatched longevity.

Model 210 LED SOLAR FLASHER

5.5" X 3" LED Warning Light

- Solar lights activate automatically through the solar cell built into the diode
- Impact modified acrylic lens will not degrade in UV light
- Polycarbonate housing stands up to harsh environments
- 3M™ Diamond Grade™ Retroreflective Tape is easy to see from anywhere
- Up to 1 mile visibility (1.6 km)
- Sealed to IP67 IP69K for power wash & steam cleaning resistance
- Year-round use
- Up to 11 candela brightness
- Perpendicular light beam
- Versatile Click Bond™ mount eliminating drilling
- Battery recharges in 6 hours
- Battery runs for 120 hours
