MODEL 260

LED REAR COMBINATION LIGHT

LIGHTER, BRIGHTER & BETTER

Elevate your next project with our premium Model 260 Rear Combination Light — engineered to exceed OEM standards while making a bold design statement. These lights deliver exceptional visibility and reliability in a lightweight, low-profile housing that enhances both function and form.

Designed for full flexibility, the Model 260 beam pattern allows mounting in any orientation — supporting a variety of configurations without compromising performance or compliance.

The Model 260 meets global ECE and SAE regulations, making it ideal for commercial, specialty, or on-highway applications. For lights with direction indicator functions, it includes ISO 13207 outage detection for improved system compatibility and integration. Durable, efficient, and visually striking, pair the functions together or use them individually to bring modern performance to any rear lighting system.

Craft your next vehicle with lights that are built to perform, designed to impress, and engineered for the demands of OEM production. Choose our Model 260 LED Rear Combination Light for uncompromising quality, flexibility, and power.

HIGHLY CUSTOMIZABLE MODEL 260

Follow these simple steps to help select the perfect Model 260 Rear Combination Lights for your vehicle application:

1

CHOOSE YOUR MOUNTING PREFERENCE:

Flange Mounted

Can be bolted to a panel or custom bracket using M6 bolts

OR

Post Mounted

Uses 7mm Posts that can be mounted to panels or custom fascia with 11mm speed nuts

The Model 260 can be installed at any orientation, allowing for 360° mounting capabilities!

2

CHOOSE YOUR FUNCTIONS:

Functions	Regulation	Flange Part Number	Post Part Number
Stop, Tail	SAE/ECE	0348581	0348591
Direction Indicator	SAE/ECE	0348601	0348611
Stop, Tail, Direction Indicator, Rear Fog, Reverse	ECE	0348631	0348641
Front Position, Direction Indicator	SAE	0348691	0348701
Reverse	SAE/ECE	0443721	0443731
