

MODEL 6048 AUXILIARY LIGHT

DRIVING, SPOT, FOG, & 4 COLOR

MODEL
6048

Built to last

J.W. Speaker's Model 6048 packs a punch with its durable construction and state-of-the-art illuminating LEDs. More reliable than any bulb-based light, the 6048 lights are built with durable and long lasting die-cast aluminum housing.

Available in multiple beam pattern configurations, this light just got a brand new upgrade. New to the series is the 6048 Color Auxiliary Light, built with 4 stunning colors: red, blue, amber, and green.

Model 6048 is available at your authorized J.W. Speaker dealer.

J.W. SPEAKER®
Engineered. Lighting. Solutions.

Brighter and bolder, the Model 6048 is more reliable than any bulb-based light could ever be. Built with versatility in mind, this light has been expertly designed in multiple beam patterns to fit the needs of nearly any work-site.

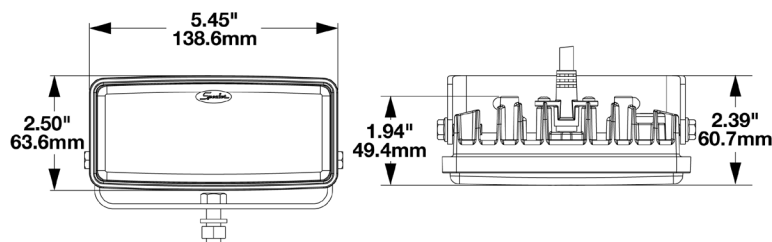

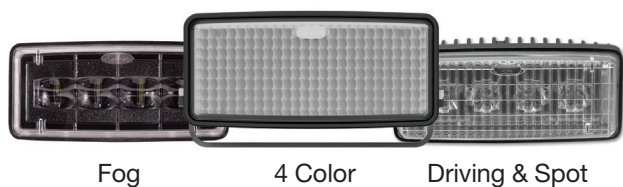

Upgrade your vehicle with the latest Model 6048 LED 4 Color Auxiliary Light. This stunning light utilizes multiple LED colors instead of colored lenses, giving a clear and attention getting beam of light. Pick the color of your choice with brilliant illumination in red, blue, amber and green.

For enhanced safety, the Model 6048 LED 4 Color can be used as an indicator light, using green to show the vehicle is active and red to show that the vehicle is inactive.

Applications: Agriculture, Construction, Industrial, Material Handling, Mining, Off-Road 4x4, Railroad, Specialty Vehicles, Truck & Bus
