MODEL 795

NAVIGATE BETWEEN WORK LOCATIONS SEAMLESSLY

Versatile Dual-Tone Illumination

Engineered with tight spaces in mind, the low profile design of the Model 795 LED Compact Work Light provides a compact lighting solution for a wide range of applications.

The Model 795 is a dual-function work light: the top half is a white LED work light producing 1980 lumens, ideal for agriculture, construction, mining, and off-road environments to stay productive at any hour, in any weather. The lower half of the work light is an amber direction indicator (DI). The DI meets ECE Regulation 148 - 1, and when activated, overrides the work light. The lower half can be in a hazard/flash mode when on the roadway or can remain constantly on.

White & Amber Lighting Options

MODEL 795

LOW PROFILE. HIGH PERFORMANCE.

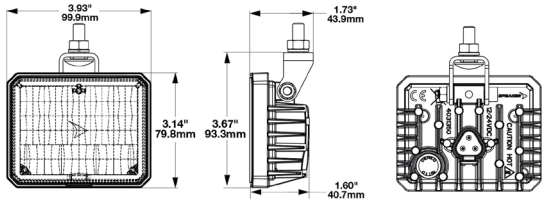
Constructed with robust aluminum housing and a tough polycarbonate lens, the Model 795 is designed to excel in the most demanding work sites. Suitable in various environments, such as: mining, industrial, construction, and agriculture.

This durable, 4" x 3", pedestal-mounted, corrosion-resistant, LED light easily fits a variety of work vehicles, ensuring continuous productivity.

- Input Voltage 12-24V
- Pedestal Mount
- ECE Reg. 148 1
- Rated IP67 & IP69K
- 4"x3" or 99.9mm x 79.8mm

Travel with Confidence

Operating agriculture equipment demands consistent and high-quality lighting for worker safety and productivity. In environments such as mining, industrial, construction, and agriculture, workers face unique challenges. These include constantly changing weather conditions and frequent, rigorous use of equipment. Reliable lighting is essential to navigate these challenges, ensuring workers can perform their tasks efficiently and safely. This is especially important when traveling between different locations using roadways. The Model 795 LED White/Amber Compact Work Light is designed with these applications in mind.



J.W. Speaker, known for creating high-performance LED technology, introduces the latest generation in our compact work light series. The Model 795 LED Amber/White Compact Work Light is designed to help workers transport equipment between locations while staying compliant with on-road safety regulations, ensuring they have the necessary illumination to tackle the toughest tasks with confidence and clarity.
