

MODEL 8693 ADAPTIVE® 2

A BRIGHTER, SAFER HEADLIGHT

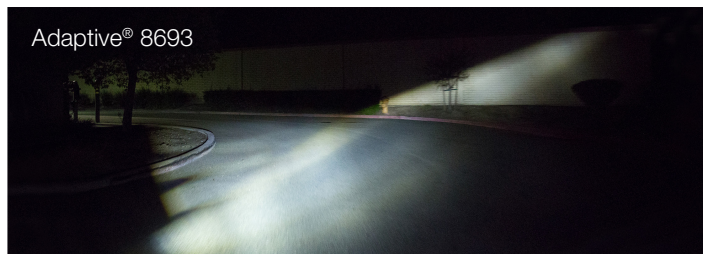

Set your sights on a brighter, safer path. Since designing the Adaptive® 2 Series of LED Headlights for motorcycles, we've continued our journey to engineer the ultimate LED lighting solution for riders. The NEW Model 8693 Adaptive® 2 features a "halo" DRL/Front Position, Dual Burn® high & low beam optics for an extra punch of light, and ComfortLite® high beams for improved light output.

The LED Adaptive® 2 Series headlights are designed with advanced electronics and embedded sensors that calculate bank angles on a real-time basis, automatically directing a light array up or down in the foreground as the motorcycle leans.

VERSATILITY REDEFINED

Our new Model 8693 Adaptive® 2 Headlight comes with versatile mounting options tailored for popular motorcycle models, including the Honda Grom, Yamaha FZ-07, and Ducati Monster. All options provide high beam, low beam, and front position functionalities. Both Adaptive and Non-Adaptive headlights are available.

BRIGHT ILLUMINATION

The Model 8693 Adaptive® 2 motorcycle LED headlight calculates bank angles on a real-time basis using proprietary technology and onboard sensors, automatically directing the light array up or down as the motorcycle leans. This additional illumination fills in the gaps that traditional headlights can't.

This new headlight combines innovative Adaptive® 2 optics and ComfortLite® high beam optics to provide best-in-class foreground illumination and light above the horizon (respectively), which dramatically improve rider comfort and safety. The heavy-duty, die-cast aluminium housing and state-of-the-art LEDs deliver premium performance and give a bike a truly unique look!

ADAPTIVE FEATURES:

- Dynamically Fills in Dark Areas While Turning
- Breakthrough Improvement in Visibility and Safety
- Stunning "Halo" Daytime Running Light and Front Position
- DOT & ECE Dual-compliant Headlight
- Dual Burn® High & Low Beam Optics
- Comfortlite® High Beams

Model 8693 Headlights and Honda Grom Mounting Kit

Part No.	Description
0561843	12V DOT LED Adaptive Headlight and Honda Grom Gen 2 (2016 -2021) Fitment Kit
0561853	12V DOT LED Non-Adaptive Headlight and Honda Grom Gen 2 (2016 -2021) Fitment Kit

Model 8693 Headlights and Yamaha FZ-07 Mounting Kit

Part No.	Description
0561923	12V DOT LED Adaptive Headlight and Yamaha FZ-07 (2014-2017) Fitment Kit
0561933	12V DOT LED Non-Adaptive Headlight and Yamaha FZ-07 (2014-2017) Fitment Kit
