

MODEL 8700

LED MILITARY-GRADE HEADLIGHT

Tactical Illumination

The Model 8700 Military LED Headlight is a hardened evolution of our trusted Model 8700 EVO 2, purpose-built to meet the demands of military environments. This 7" round LED headlight and bucket delivers powerful, reliable illumination with a precisely engineered beam pattern for improved visibility and operational safety in the field.

Fully compliant with military regulations, the Model 8700 Military Headlight is designed to withstand harsh conditions, offering enhanced resistance to shock, vibration, and environmental extremes. With durable construction, advanced optics, and a proven design platform, this headlight provides mission-critical performance where it matters most.

MODEL 8700 MILITARY HEADLIGHT

READY FOR ANYTHING

The Model 8700 Military Headlight is ideal for a wide range of tactical and support vehicles that utilize 7" round headlights, including the Humvee, JLTV, MRAP, and other light to heavy-duty defense platforms.

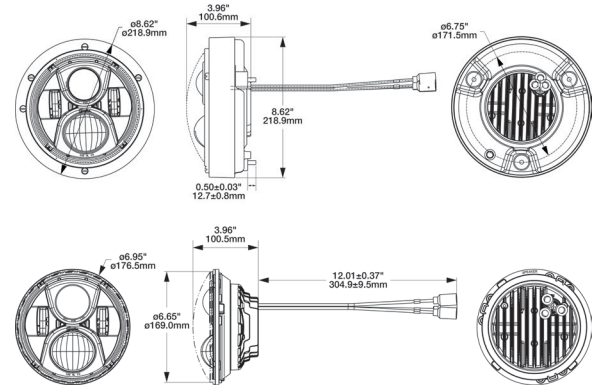

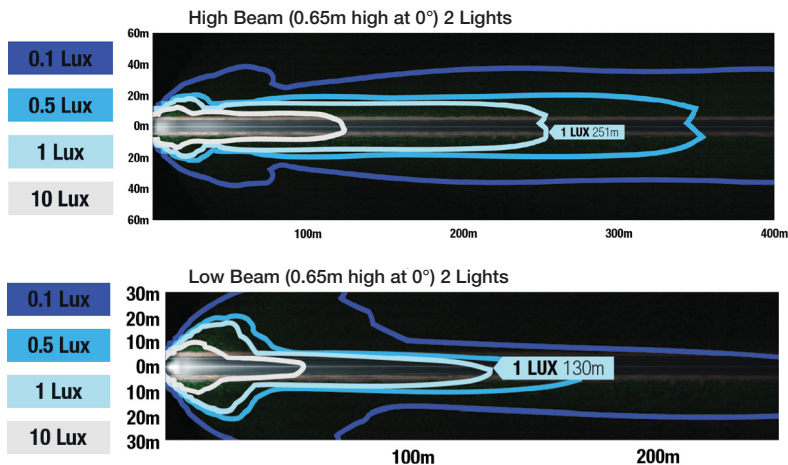

Unrivaled Performance

The 8700 Military LED Headlight is engineered to meet stringent military performance and environmental standards, making it ideal for demanding defense applications. It features Dual Burn® optics for improved visibility by combining both beams to illuminate more of the road ahead. Sealed to an IP67 rating, the Model 8700 Military Headlight ensures complete protection against dust and water ingress, and is tested to withstand high levels of shock and vibration in accordance with military-grade durability protocols. Available in three bucket color configurations for camouflage integration, this headlight delivers reliable, regulation-compliant performance in mission-critical environments where lighting failure is not an option.

Key Specifications:

- Dual Burn® High & Low Beam Optics
- ComfortLite® High Beams
- 1,260 (High Beam) & 750 (Low Beam) Effective Lumen Output
- Available in 3 Bucket Color Options
- Meets FMVSS 108 Requirements
- Rated IP67
