

MODEL 8730

SHALLOW 7" ROUND HEADLIGHT

SmartHeat 
HEATED LIGHTING TECHNOLOGY

Delivering bright illumination.

The Model 8730 Shallow 7" round LED Headlight will effectively light your way during the night and enable safe driving while giving your vehicle a signature look. These headlights install easily with plug-and-play wiring, and fit perfectly in the OEM housing for Mack trucks and Thomas Built buses (PAR56).

Model 8730 Headlight is available at your authorized J.W. Speaker dealer. For more information & technical specifications, go to www.jwspeaker.com

MODEL 8730

BRIGHT LIGHTS FOR EVERY VEHICLE

The Model 8730 Shallow 7" series LED Headlight was designed to fit in vehicles that are tight on space and require a shorter depth than standard headlights.

SmartHeat® Technology. Now available for the Model 8730 Shallow 7" offers a heated lens to help clear ice and snow in hazardous conditions.

Dual Burn® Technology. For when you need the most light. Dual Burn technology combines high and low beam when turning on your high beam for an extra punch of light down the road, while maintaining the wide-spread of the low beam.

ComfortLite® Technology. Light in all the right places. We've created a new ComfortLite® technology, which not only provides a more powerful punch down the road but also delivers additional illumination above the horizon. Drive behind them, and you'll never go back to using another standard headlight again.

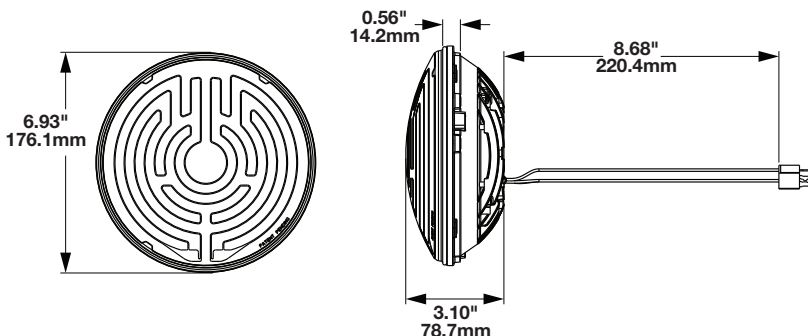

Model 8730 LED Headlight

Shallow 7" Round LED High & Low Beam Headlight; 12-24V DC Input

- 22% shallower than other headlights
- Easily retrofits 7" halogen headlights
- Dual Burn® high beam optics for extra punch of light
- Easy plug and play installation for a 7" LED headlight
- ComfortLite® high beams
