

Model 8800 EVO-X

THE POWER OF X

Serious performance. Smarter design.

The Model 8800 EVO-X redefines what a full-size 4"x6" headlight can be. Engineered around industry-leading JWS Dual Burn® technology and a precision optical platform, it delivers expansive low beam coverage with powerful high beam punch maintaining consistent, full brightness even at low voltage.

Featuring a bold new "X" Optic design, a slimmer profile to fit standard headlamp mounts, and reduced part weight, it offers a modern look, simplified installation, and dependable performance in demanding environments.

Model 8800 EVO-X

PERFORMANCE THAT DELIVERS

The 8800 EVO-X improves visibility, reduces downtime, and simplifies installation while meeting on-road compliance standards.

Engineered with Purpose.

The 8800 EVO-X features industry-leading JWS Dual Burn® technology, delivering wide low beam spread with powerful high beam punch. The enhanced precision beam pattern produces smooth, even light with no streaks or dark spots, while neutral white LEDs improve driver alertness and visibility.

Designed for on-road and vocational fleets, it fits standard headlamp mounts and installs plug-and-play across model years. H4 compatibility simplifies upgrades and reduces downtime. Available SmartHeat® technology provides automatic lens de-icing for cold-weather reliability. Improved venting reduces condensation, while the sealed integrated connector rated IP67 and IP69K protects against water, debris, and road contaminants.
