

MODEL 892

LED COMPACT WORK LIGHT

Move forward with confidence.

See clearly when you need it most with the Model 892 LED Compact Work Light. Brighter and more durable than inferior halogen lights, the rugged LED light projects an incredible 3,800 lumens for forward lighting that cuts through the darkest nights and most inclement weather. Use it in agriculture, construction, mining and even off-road environments to help keep your crews productive and safe.

MODEL 892

COMPACT. DURABLE. POWERFUL.

Suited for agriculture, construction, mining and even off-road environments to stay active, productive and safer at all hours and in any weather.

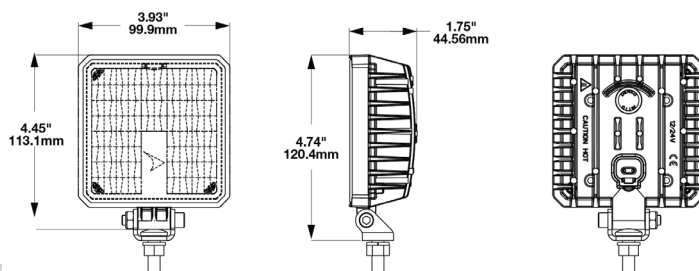

Move forward with confidence with the Model 892 LED Compact Work Light. This powerful LED work light projects a wide beam of light via custom lens optics producing 3,800 lumens in front of your vehicle for incredible visibility. Use it in agriculture, construction, mining and even off-road environments to stay active, productive and safer at all hours and in any weather.

J.W. Speaker, known for manufacturing high-performance LED technology, developed these compact work lights for operators who rely on consistent and quality lighting to remain safe and productive while working. Designed as the second light in our compact work light series, we've built even more illumination and visibility into a slightly larger version of our 792 LED Compact Work light. Use the 792 and 892 together for the ultimate lighting package.

Built with sturdy aluminum housing and impact-resistant polycarbonate lens, the Model 892 shines brightest for crews in the harshest, most demanding worksites. The durable, pedestal-mounted and corrosion-resistant LED light fits easily on a wide range of work vehicles for nonstop productivity. Rated IP67 and IP69K, the Model 892 withstands bumps, thumps and vibrations common when used by rugged users on tough, weather-adverse sites.

Engineered with tight spaces in mind, the low-profile design of the Model 892 LED Compact Work Light provides a compact lighting solution for a wide variety of applications.

Model 892 LED Flood Work Light

12-24V DC system operates in 9-30V DC

- Sold as single and bulk packs
- 3,800 effective lumens in wide, flood beam pattern
- Input Voltage: 12/24V DC
- Pedestal mount
- ECE Reg. 10 compliant
- Rated IP67 & IP69K

Part No.	Description
1603961	12-24V LED Flood Work Light Pedestal Mount
1603962	12-24V LED Flood Work Light Pedestal Mount (BULK with Harness)
1604022	12-24V LED Flood Work Light Pedestal Mount (BULK without Harness)
