

MODEL 893

LED COMPACT WORK LIGHT

Optimized Safety

The Model 893 LED Compact Rectangular Work Light uses its unique low-profile design to project a wide beam of light in the most harsh and limiting conditions. Dependable and brighter than a standard work light, the Model 893 can be used in agriculture, mining, construction, and off-road environments. Avoid accidents and keep your team out of harm's way by upgrading to the optimal illumination solution.

Rated IP67 and IP69K, the Model 894 is fully protected against dust, dirt, high-pressure water, and the harsh conditions typical of rugged, weather adverse work environment.

MODEL 893

INCREASE CONFIDENCE

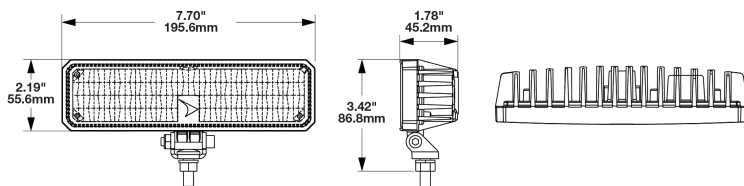

Model 893 was created as the third light in the LED Compact Work Light Family following Model 792 and Model 892, all suited for agriculture, construction, mining, and off-road environments.

Maximize Productivity

J.W. Speaker, known for manufacturing high-performance LED technology, developed Model 893 to be used in the harshest working conditions providing crucial illumination for the safety, productivity, and comfort of workers. Designed to help teams stay active, productive and safer at all hours and in any weather.

Operating equipment and machinery in dark environments require workers to rely on consistent and quality lighting to remain safe and productive while working. The operating conditions in agriculture, industrial, construction, and mining environments represent a unique set of challenges for workers, as changes in weather and lighting conditions are a daily occurrence.

Model 893 LED Compact Work Light

Part No.	Description
1300671	12-24V LED Compact Work Light with Pedestal Mount
1300672	12-24V LED Compact Work Light with Pedestal Mount (BULK w/ Harness)
1300692	12-24V LED Compact Work Light with Pedestal Mount (BULK w/out Harness)
