## AUXILIARY KITS

### Compact & Powerful Forward Lighting

Upgrade your vehicle lighting with the Mosaic Auxiliary Kits, available in High Beam or Fog Light. J.W. Speaker designed this as a complete, aftermarket-ready solution built for performance, durability, and ease of installation. Whether you're outfitting a work truck, off-road vehicle, or industrial equipment, this compact yet powerful LED auxiliary lighting kit delivers exceptional visibility and rugged dependability.

The Mosaic Auxiliary Kits bring J.W. Speaker's renowned quality and innovation into a compact and flexible lighting solution. Whether you're navigating dark roads or job sites, these lights are engineered to deliver consistent, road ready performance.

### Rugged & Trail-Ready

Looking for more customization or building something for the trail? These individual components let you pick and configure parts exactly how you want from voltage to light functions and mounts. Please note, the dual pedestal mount and any configuration that doesn't follow the instructions above is **not** ECE certified, making them ideal for ATVs, side-by-sides, or custom off-road builds where lighting rules don't apply.
