

# MODEL 9600 PETERBILT POD LED HEADLIGHT

VERSATILITY. DURABILITY. VISIBILITY.

## Look forward. Shine brighter.

Rediscover the beauty of your Peterbilt truck in a new way. The Model 9600 Peterbilt POD LED Headlight is expertly engineered with outstanding durability, stunning performance, and superior visibility. The iconic plug-and-play POD light design delivers an innovative style to complement and enhance Peterbilt 388/389 and 567 trucks.

This 5-in-1 headlight uses a unique “blade” design to integrate turn signal performance and front position optics while using Bi-LED technology to digitally switch between high and low beam. Complete with optional SmartHeat® technology, the Model 9600 is designed to automatically remove ice and snow from the lens, giving Peterbilt drivers better visibility in treacherous winter conditions.

# BUILT BY THE BEST, FOR THE BEST

## UPGRADE PETERBILT 388, 389, & 567 TRUCKS

### Advanced Technology.

The Model 9600 Peterbilt POD LED Headlights are the definition of innovative technology. Built with Bi-LED digital switching between high and low beams, this light provides greater “ditch-to-ditch” visibility to improve safety for drivers and other motorists. This 5-in-1 light offers stunning illumination for all of its beam patterns including High and Low Beam, DRL, Front Position, and Turn Signal. Its iconic design includes front-side markers with feature lines and reflex optics that meet DOT standards for beam output, pattern, and anti-glare.

### Outstanding Durability.

Expertly engineered with attention to detail, the Model 9600 isn't just designed to look stunning. With polycarbonate housing, military-grade lens, anti-fog coating, and UV protection this light is built to outperform in even the most demanding conditions. Our patented SmartHeat® technology completes this package by melting snow and ice. Integrated with an intelligent grid system that reacts in real-time, the light automatically heats the lens without driver intervention.
