

MODEL 9600 PETERBILT POD LED HEADLIGHT

VERSATILITY. DURABILITY. VISIBILITY.

Look forward. Shine brighter.

Rediscover the beauty of your Peterbilt truck in a new way. The Model 9600 Peterbilt POD LED Headlight is expertly engineered with outstanding durability, stunning performance, and superior visibility. The iconic plug-and-play POD light design delivers an innovative style to complement and enhance Peterbilt 388/389, 567, and 589 trucks.

This 5-in-1 headlight uses a unique “blade” design to integrate turn signal performance and front position optics while using Bi-LED technology to digitally switch between high and low beam. Complete with optional SmartHeat® technology, the Model 9600 is designed to automatically remove ice and snow from the lens, giving Peterbilt drivers better visibility in treacherous winter conditions.

J.W. SPEAKER
Engineered. Lighting. Solutions.

BUILT BY THE BEST, FOR THE BEST

UPGRADE PETERBILT 388/389, 567 & 589 TRUCKS

Advanced Technology.

The Model 9600 Peterbilt POD LED Headlights are the definition of innovative technology. Built with Bi-LED digital switching between high and low beams, this light provides greater “ditch-to-ditch” visibility to improve safety for drivers and other motorists. This 5-in-1 light offers stunning illumination for all of its beam patterns including High and Low Beam, DRL, Front Position, and Turn Signal. Its iconic design includes front-side markers with feature lines and reflex optics that meet DOT standards for beam output, pattern, and anti-glare.

Outstanding Durability.

Expertly engineered with attention to detail, the Model 9600 isn't just designed to look stunning. With polycarbonate housing, military-grade lens, anti-fog coating, and UV protection this light is built to outperform in even the most demanding conditions. Our patented SmartHeat® technology completes this package by melting snow and ice. Integrated with an intelligent grid system that reacts in real-time, the light automatically heats the lens without driver intervention.
