MODEL 9902

BUILT FOR THE TRAIL

The Model 9902 is a high-performance LED auxiliary high beam light designed for off-road adventures, delivering exceptional distance illumination where it matters most.

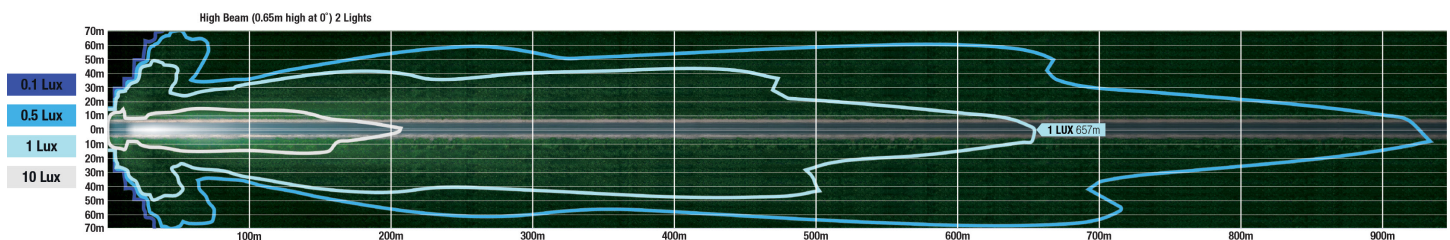

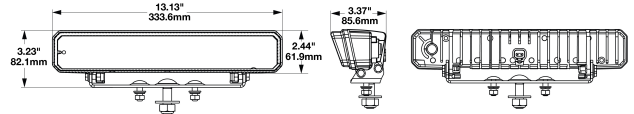

No Roads. No Limits.

With an impressive 2,850 effective lumen output, the Model 9902 delivers a concentrated, high-intensity beam that cuts through darkness with precision. Unlike other light bars, the Model 9902 packs a high-powered, wide punch that is engineered to maximize forward visibility and reduce wasted light. Built to perform, the Model 9902 allows you to see far down the trail, enhancing reaction time and boosting safety in fast-paced or remote driving conditions.

Designed with a sleek, low-profile housing, this light bar fits easily into tight spaces without compromising performance. Its bracket-mounted configuration ensures quick, secure installation on a wide range of off-road rigs. Whether you're mounting on a bumper, roof rack, or grille guard, the Model 9902 adapts to your build with ease.
