TRAIL 6 AMBER/WHITE™

Ultimate visibility for maximum safety

J.W. Speaker's Trail 6 Amber/White™ allows for better safety and visibility with bright white or amber LEDs. Illuminate the work site with brilliant white light, or cut through dust and fog with amber LEDs to see every potential hazard.

Easily mount on any vehicle with the Trail 6 Amber/White™ custom lighting system with over 1,300 Effective Lumens of bright light.

Total control and customization

You need reliable, bright lights that work as hard as you do. This compact, durable work light offers total LED color control with two wire and three wire install options to match any vehicle's needs.

2 Wire Install (for Easy Replacement of Existing Light):

- Utilize power + ground wires
- Lamp starts in White, anytime power is applied
- Fast toggle (within 5 seconds) toggles to Amber
- Repeat to return to White

3 Wire Install:

- Utilize power/white + power/amber + ground wires
- Three positioning switch (Amber/White/Off)
- Lamp output is determined by the power supplied (Amber or White)

- The Trail 6 Amber/White™ comes as a complete kit with: 2 lights with universal brackets, 3 sets of interchangeable lenses, mounting hardware & wire harnesses
- Sealed to IP67 and IP69K, protected from dust and water
