

MODELS 8900 & 8910 EVOLUTION 2

PROFESSIONAL GRADE.

FIVE STAR RATED.

It's back and better than ever.

J. W. Speaker has raised the bar for 5" x 7" LED headlights. Both new models comply with NHTSA's proposed guidelines for a 5-Star safety rating, delivering more light output and less glare. The 8910 Evolution 2 also provides a Dual Burn™ high beam, for powerful punch of light.

Designed for plug & play installation and compatible with DRL systems, the Model 8900 Evolution 2 is the ideal headlight for commercial vehicles where visibility is critical to ensuring productivity. The 8910 Evolution 2 features SmartHeat™ technology, with a heated lens to de-ice during extreme cold and ensure safe operation all year long. Whether used for delivery, mining, logging, waste disposal or over-the-road driving, these headlights deliver superior visibility, extreme durability and unparalleled longevity.
